

iPC-WP will lead you to a water world

IPC-WP... Compact, Portable Scale for Washdown Environments

Features

Durable Construction Equals Quality Performance

Meeting the demands of an IP-65 rating, Ishida's IPC-WP is protected from dust and low pressure water. The stainless steel platter is designed for ease, removal and frequent washing for food and chemical applications. The IPC-WP's sleek design is coupled with accuracy and user friendly operation.

On the Go Convenience

Today's fast-moving business climate demands portable solutions. Quite simply your tools need to be where you are. That's precisely why we created the IPC-WP with both battery power and an AC adapter. When required, the IPC-WP is easy to move and instantly set up at remote locations such as farmers markets and roadside stands. Two D-cell batteries allow efficient, extended operation—as long as 500 hours, and an annunciator lets you know when to change them. The IPC-WP's selectable Auto Power Off function saves power and ensures long battery life.

Large Display & Accessible Buttons

The large 25mm LCD panel provides instant weight identification and the optional dual display is ideal for retail applications.

Specifications

Platter size	229 x 196 mm
Multi Interval	3 kg
Capacity and minimum graduation	1 g (0 - 1.5 kg), 2 g (1.5 - 3 kg)
	8 kg
	2 g (0 - 3 kg), 5 g (3 - 6 kg)
	15 kg
	5 g (0 - 7.5 kg), 10 g (7.5 - 15 kg)
Weighing method	Strain gauge load cell
LCD panel	Six digits (7-segment), character height 25 mm
Display information	6-digit weight, battery annunciator, decimal point, net weight annunciator, stability annunciator, minus sign, and unit of measurement
Power	2 Dry Cell D-type batteries (up to 500 hours) or AC adapter. (Dry Cell batteries and/or AC adapter are not included) Auto Power Off function (can be set to 60 min., 20 min., or off)
Operational temperature	-5°C - 40°C
Weight	3.2 kg (including batteries)
Approvals	OIML/Ce conformity for approval type
Option	AC adapter
